

AC EXPERT STANDARD QUOTE 2023

Prices valid until 30 June 2023

Ph : 0450 390 166

INSTALL ONLY

Our price if you already bought your split system

Up to 4kw	\$600
Up to 6kw	\$650
Up to 9kw	\$750
Upstairs add	\$150

These prices cover 90% of installs completely. If you have a nice wall with the outside world behind it, then the prices above cover the entire install. Labour, parts, bracket, electrical, GST, everything. The next page of this quote has an installation diagram showing which installs will cost extra, if any. If yours is an **A** or a **B** then the price is fixed as above and below.

SUPPLY AND INSTALLATION

Prices cover everything. New unit, complete installation with wall bracket and gst.

VARIATIONS OF WHERE YOUR SPLIT SYSTEM CAN BE INSTALLED AND COSTING. STANDARD PRICE IS ADVERTISED

A : STANDARD PRICE
B : STANDARD PRICE
C : ADD \$ 100
D : ADD \$ 250
UPSTAIRS ADD \$150

We charge upstairs rates only for genuine second level and above. If house is just raised it's not extra charge

D can be up to \$300 extra. Usually \$150 - \$200 only maximum distance between units is 15m

C will have 80mm visible duct on wall beside or behind head unit. An example of this is pictured below.

Examples of B corner installation

Example of A installation

Water must run downhill to external drain point. We do not use pumps to fight gravity. Gravity will win eventually and you'll have a wet ceiling / floor or both.

A OR B WITH AN EXTRA METRE OFF TO THE SIDE IS FINE.

**ALL DRAINS FROM C AND D MUST RUN DOWNHILL TO EXIT.
CANNOT RUN IN CEILING WITH GAS PIPES**
